## Executive Summary

### Introduction

This document, the Courtland Township Recreation Master Plan, is intended to guide present and future recreational resource development within the township, including park land, parks facilities, recreational programs, and public open spaces.

This plan, in addition to serving as a guide for recreation facilities and program development, is prepared to satisfy the requirements set forth by the Michigan Department of Natural Resources (MDNR). Recreation plans are required by the MDNR for state and federal grant eligibility.

## Community Description

### Location & History

Courtland Township is a part of the Grand Rapids Metropolitan Area and is located about 10 miles northeast of the City of Grand Rapids. Since the late 1980's the Township has been going through a transformation, from an agricultural to a rural residential community. As more people move to Courtland Township there is an increasing need to maintain the existing natural features of the township to preserve it's rural atmosphere.

At one time Courtland Township was comprised of three communities. Courtland Center, Evans, and Sheffield. Courtland Center was located on the corner of Myers Lake Avenue and 13 Mile Road. First settlers were Barton Johnson in 1838 and Alexander Dean in 1839. Courtland Township was organized in 1839 and the village was named after it. It was given a post office as Courtland on January 30, 1841, with Philo Beers as its first postmaster. The office operated until November 19, 1860. The Courtland Center post office was opened on October 24, 1856, with John Woodruff as its first postmaster. This office operated until February 15, 1901. Evans was located on Redmond about ½ mile south of Benham Road. The first settler in this area was Barton Johnson in 1838. Evans was a station on the Toledo, Saginaw & Muskegon Railroad. George W. Morris became Evans' first postmaster on May 3, 1888. Sheffield was originally located on Myers Lake Avenue at 15 Mile Road. Sheffield was also a station on the Toledo, Saginaw & Muskegon Railroad. The station was established in 1888 with S.D. Saunders at its railroad agent. Charles Sipple became the first postmaster on March 6, 1891, and this post office in Courtland Township operated until April 30, 1906. These small communities died out when the railroad eliminated the two railway stations and when the automobile became the norm.

### Climate

West Michigan has a fairly balanced climate, extended intervals of extreme hot or cold are rarely experienced. The warm season lasts from May to September, with an average daily high temperature above 72°F. The hottest month of the year in West Michigan is July, with an average high of 82°F and low of 63°F. The cold season lasts from December to early March, with an average daily high temperature below 41°F. The coldest month of the year is January, with an average low

of 19°F and high of 31°F. Rain falls throughout the year in West Michigan. September sees the most rainfall, with an average of 3.2 inches. The month with the least rain in is January, with an average rainfall of 0.8 inches. The snowy period of the year lasts from approximately November to April. The month with the most snow is January, with an average snowfall of 6.8 inches. The snowless period of the year lasts for 7.0 months, from April to November.

## Water Resources

Property with water access is still in high demand throughout the township, with buyers looking for year-round water recreation opportunities. With so much of the water-front property being developed into homes, lawns, boat docks, parks, and beaches, what's left does not contribute to the character of the lake in a meaningful way. However, some smaller lakes such as Tamarack, Davis, and Carlson still have a majority of undeveloped water frontage. The township may hope to take measures to prevent these lakes from being overdeveloped.

In Michigan, the greatest causes of non-point source contamination are agricultural practices, lawn chemicals, and soil erosions. Buffer zones should be established around lakes and streams to prevent bank erosion. Development should be prohibited in these areas. However, since much of the water's edge, at least along the lakes, has been developed, the emphasis for providing buffers should undeveloped frontage, and along the township's streams.

Stegman Creek, Rum Creek, Becker Creek and Shaw Creek are tributaries to the Rogue River, which has a designation as a Michigan Natural River corridor. Under State regulation, some protection is offered for the creek edges; the Courtland Township Zoning Ordinance includes the necessary requirement of a 25 foot undisturbed strip of vegetation along these creeks. This setback is meant to provide a vegetated buffer to absorb runoff from developed areas and reduce erosion into the creek bed.

## Soils

The soils in Courtland Township are characterized by two broad categories according to the U.S. Department of Agriculture Soil Conservation Service (refer to the Courtland Township General Soil Classification map, Map 2). The north half of the Township consists of Rubicon-Croswell-Deer Park association, which is nearly level to steep, well drained to moderately well drained, sandy soils on out wash plains, beach ridges, and dunes. This classification does not necessarily make good farmland, as the soil tends to be low in fertility and susceptible to wind erosion but does make a good soil for development as it can provide good foundations for structures and septic systems.

## Population

The population of Courtland Township has been growing for the past 50 years, nearly doubling in the past 20 years. Based on the most recent 2020 census the township has a population of 9,005 residents and will continue to grow. According to projections from LSL Planning, the population will continue to climb, reaching nearly 13,000 residents by the year 2030. See Courtland Township Census information below. New or improved infrastructure, increased housing needs, potential commercial and service needs, and new industrial development may occur with new population. The goal of this plan will be to help Courtland Township prepare for future recreational needs.

## Administrative Structure

Recreation planning is a method for anticipating and arranging recreational improvements so that they may be implemented on a reasonable schedule and without an adverse effect on a community's administrative and financial structure. An effective recreation plan will recognize the practical relationship between a community's administrative structure and its ability to follow through on a recommended recreational improvement program.

Townships are a product of Michigan's early history, and Michigan is one of 20 states that currently have some form of township government. There are two types of townships in Michigan - general law and charter townships. Charter township status is a special township classification created by the Michigan Legislature in 1947 to provide additional powers and streamlined administration for governing a growing community. Courtland currently operates as a general law township.

A township board consisting of seven members—a clerk, supervisor, treasurer, and four trustees, serves as the Courtland Township elected government. The township board is responsible for hiring of an assessor, fire chief and other necessary personnel to operate the township properly and efficiently.

The Township Supervisor acts as the board chairman as well as overseeing the day-to-day operations of all the Township departments and preparing the annual fiscal budget. The Clerk's office is responsible for overseeing the disbursement of funds for these purposes. Funding for parks and recreation comes from the Township's general fund.

## Relationships

### Relationships with Other Public or Private Organizations

Courtland Township has partnered with volunteer community organizations such as the 4-H and the Boy Scouts for cleaning land area, planting new trees, marking tree names, and similar activities.

## Park Budget and Funding

### Annual and Projected Budgets

Townships serve other governmental units by providing tax collection services. To avoid imposing an unnecessary burden on citizens to pay separate property taxes to the township, schools, special assessment districts and the county, Michigan townships provide uniform assessment of property values and collect all property taxes on behalf of the other units of government. Only a very small portion of the taxes collected is retained by the township for its own operating purposes. The Michigan Constitution and state statutes also limit the amount of property tax millage that townships can levy for general township operations. General law townships are allocated at least 1 mill from the constitutionally limited 15/18 mills allocated among townships, the county, public schools, and the intermediate school district.

The following sums represent the general funds for park operation and maintenance for 2022-2023 (fiscal year ending on March 31<sup>st</sup>) and proposed funds for 2023-2024. These funds include expenses incurred because of park planning and projected parks capital improvements and labor:

Parks & Recreation Budget	
2022-2023	Proposed 2023-2024
\$ 490,000	\$ 450,000

## Resource Inventory

### Recreation Programming

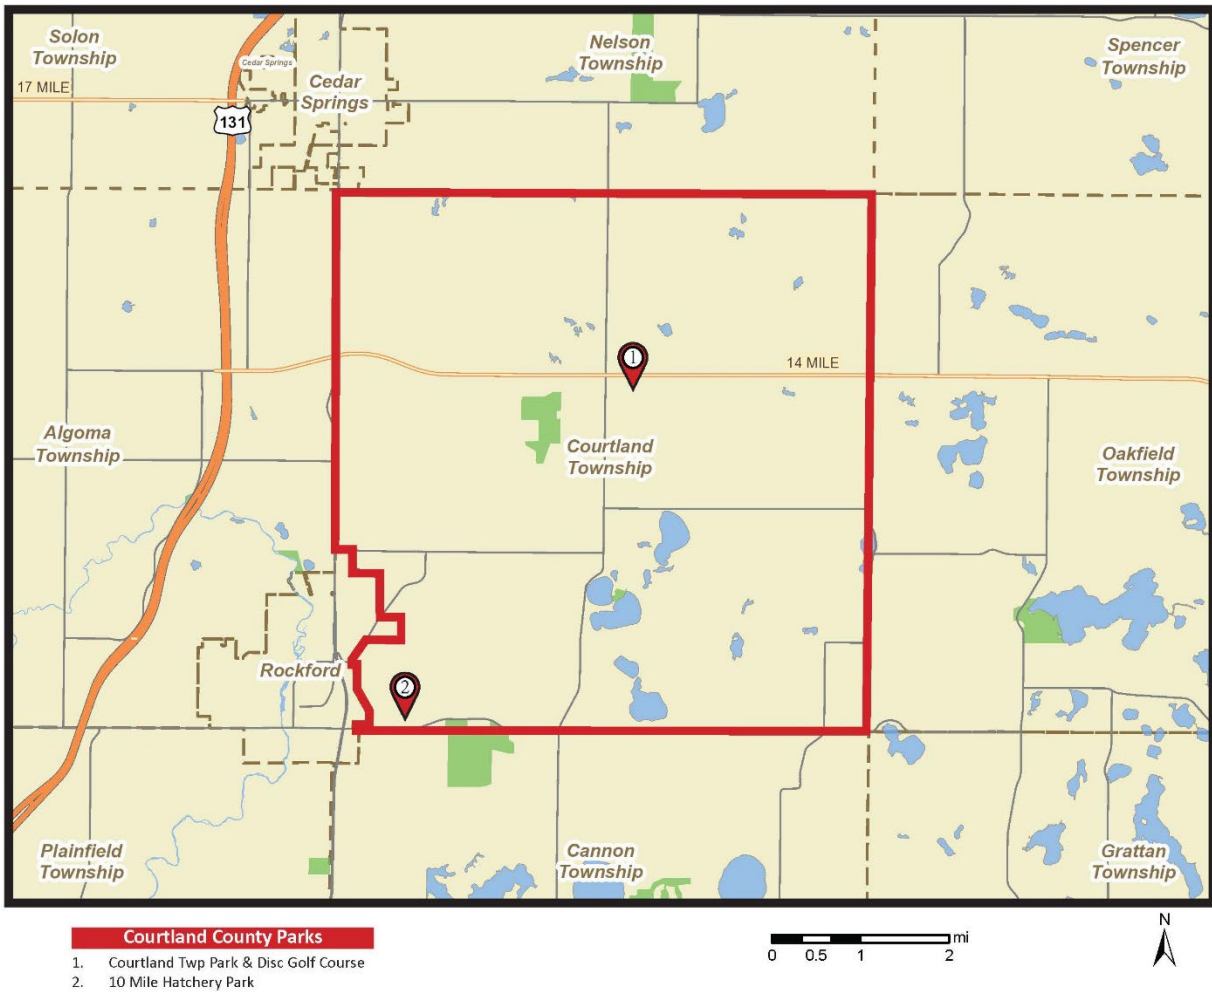

There are currently no active recreational programs administered by the Township. For the most part recreational programs are administered through the Rockford and Cedar Springs Area School Districts. The school districts are responsible for programs, staffing, and providing some facilities on the school campuses. The Township owns most of the park property located in the Township and is responsible for maintenance and capital improvements with the exception of Myers Lake Park and the northern portion of Luton Park that are owned and operated by the Kent County Parks Department.

### Recreation Inventory

Courtland Township Parks and Recreation and their consultant, Prein & Newhof, conducted an extensive tour of the township and the recreational facilities located within its jurisdiction.

Courtland Township currently operates two recreational facilities within the township, Township Park and 10-mile Hatchery Park. The next few pages show an Overall Park System Map that identifies the location of the Township's parks and recreational facilities and detailed individual park maps that summarize the location, size, and amenities of each facility.

## Overall Township Parks Inventory Map

### Courtland Township Hall Park

This is a community park located on 18.5 acres south and 30 acres west of the Township Hall and Fire Hall on 14 Mile Road. Currently the property amenities include playground equipment, a pavilion, picnic area, walking paths, volleyball court, parking, a softball diamond, pickleball courts, 18-hole disc golf course, regulation horseshoe pits, and public restrooms. The master plan calls for phase two amenities including restroom, picnic facilities, additional play equipment, two official size soccer fields, an additional softball diamond, basketball court, tennis courts, and a dog park. The undeveloped portion of the site is predominantly scrub vegetation and open grassland typical of cultivated land that has begun the process of re-vegetation once farming uses are discontinued.

## 10 Mile Hatchery Park

Courtland Township also purchased the old fishery on Ten Mile Road with plans of making this area a park. 90% of the purchase price was funded by grants from Ducks Unlimited, the AWCA Grant Land Acquisition, and Schrems Trout. The Township is in the process of developing the parcel for public enjoyment. Two of the existing ponds will be improved for wildlife habitat and nature viewing. Approximately 1,275 feet of footpath is being installed, along with a short boardwalk, parking area, and entrance drive. Significant eradication of non-native species, and planting of native species, are also in process.

## Township Parks and Recreation Resources

Name	Type	Acres	Accessibility Rating	Amenities
Courtland Twp Park	Community Park	48.5	2	Ballfields, Playground, Disc Golf, Pickleball Courts, Gravel Parking, Paved Parking
10 Mile Hatchery Park	Nature Area	16.5	1	Walking Path, Boardwalk, Gravel Parking, Nature Viewing

### Accessibility Scores:

- 1 = None of the facilities/ park areas meet accessibility guidelines
- 2 = Some of the facilities/ park areas meet accessibility guidelines
- 3 = Most of the facilities/ park areas meet accessibility guidelines
- 4 = The entire park meets accessibility guidelines
- 5 = The entire park was developed/renovated using the principals of universal design

## Planning Process

### Public Input

Community recreational facilities cannot be effectively provided without some basis from which the type, quantity, location, need, and priority for that facility has been determined. Several methods for determining a community's recreation needs and priorities have been identified. These include observed use levels for existing facilities, comparisons of recreational facilities between similar communities, unique opportunities for certain types of facilities, guidelines or standards based on quantity per population, and projected population growth, to identify a few methods.

Courtland Township values the opinions and views of its residents and helped develop the following process to gather the community's thoughts by:

- The consultant, Prein & Newhof, worked with the Courtland Township Parks Commission over the course of several months via phone, email, and face to face meetings.
- Providing digital and hard copies of the survey to residents asking specific questions of the current parks and their dreams for the future.
- The Draft Plan was made available for public for 30 days to allow for public comment.
- Held a public hearing prior to adopting the park plan on 1/04/2023.

### Survey Summary Results

There was a total of 231 responses to the survey, 226 were given online and 5 were filled out by hand. The survey shows that 71% of the participants are willing to support a  $\frac{1}{4}$  or  $\frac{1}{2}$  mill levy for a specific park project and 69% of participants are in support of parks expansion. A majority of people responding to the survey are in the 55-64 and 65-74 year old age bracket, visit Courtland Twp Parks once a month, and prefer to be contacted through email or website.

The top things residents **like** about the existing recreational facilities in Courtland Twp are:

- The pickleball courts.
- The disc golf course.
- Everything is clean and well maintained.
- Everything can be enjoyed with friends and family.
- Accessibility and the proximity to home.

The top things residents **do not like** about the existing recreational facilities in Courtland Twp are:

- Lack of access to recreational water activities
- Lack of connectivity to surrounding communities and existing trail networks
- Lack of bike trails and designated bike lanes
- Lack of play equipment for older or handicapped children

Top 3 Reasons participants visit Courtland Twp parks:

- Close to home
- Cleanliness
- Safety

Top 5 recreational activities/ enhancements participants would like to see:

- Natural hiking trails
- More biking & walking trails
- Splash pad
- Festival and concert festival
- Outdoor water recreation

The top suggestions for new recreation facilities needed in Courtland Twp are:

- Trail / Pathway systems connecting to surrounding communities
- Natural Areas
- Large multi-use parks that serve the whole community

Other suggestions/ topics consistently brought up by responders throughout the survey are:

- A need for dog parks.
- Splash pads.
- Expanded playgrounds/ kid friendly activities.
- Expand Trail connectivity.
- Concerns over possible tax increases.
- Develop water recreation access to Myers Lake.
- Archery range with elevated platforms.
- Organized community activities (Yoga, arts & crafts, seasonal events, concerts, etc.)
- Natural features (bee/butterfly habitat, more shade trees, natural landscaping, etc.)

## Goals and Objectives with Potential Actions

The information received from the public survey was reviewed, calculated, and analyzed to identify the communities' goals and objectives. The Courtland Township residents who participated in the survey have provided valuable feedback regarding their wishes and desires for the recreational facilities and activities within the Township. The following goals and objectives were formulated based on the total number of surveys that were filled out.

**Goal 1:** To Acquire, develop, maintain, and preserve sufficient open space and to develop recreational facilities to serve the needs of the Township's present and anticipated population.

### Objectives:

- Encourage, support, and develop a linear trail system to connect various park facilities with particular emphasis on connecting recreational resources through the planning and construction of a network of non-motorized trails. The Township should actively pursue acquisition of property and/or use easements on privately owned property in the township wherever practical.
- Explore trailway linkages from area points of interest such as but not limited to the Brower Lake Nature Preserve, the City of Rockford, Luton Park, Myers Lake Park, Courtland Township Hall Park, Cannon Township non-motorized trail system and the White Pine Trail through the development of a trailway master plan.
- Acquire property adjacent to existing park properties whenever possible to allow for the greatest flexibility and offer economy of sharing infrastructure when expanding or adding recreation activities to existing dedicated parklands.
- Acquire additional property to preserve open space.
- Acquire additional park property as opportunities present themselves in high growth areas of the Township, which may be distant from existing park facilities.

### Potential Actions:

- Most of the growth in the township has been south of 13 Mile Road and with this pattern to likely to continue, the township should be especially mindful of acquisition opportunities in these areas.
- Actively canvas the local community looking to procure property.
- Explore opportunities for acquisition of sensitive properties along the various watersheds in the western half of the Township. These efforts should be coordinated with the Land Conservancy of Western Michigan.
- Develop a trail master plan that would aid the Township in identifying priority areas of acquisition and development.

**Goal 2:** Develop a system of non-motorized paths which will link the Township to adjacent communities as well as linking the Township's residential areas with schools, parks, commercial centers, and waterways.

**Objectives:**

- Provide residents with a non-vehicular path system that provides opportunities for recreation as well as convenient and safe access to major destinations in the Township and connections to adjacent communities.

**Potential Actions:**

- Construct non-motorized paths to link developing residential neighborhoods in the Township with major activity areas, such as parks, schools, and retail areas.
- Develop and plan a non-motorized path system linking efforts by other surrounding communities such as Cannon Township and the City of Rockford.
- Construct trailway linkages from the Brower Lake Nature Preserve, the City of Rockford, Luton Park, Myers Lake Park, Courtland Township Park, Cannon Township, and the White Pine Trail.
- Explore interest, involvement, and possible formation of a Northeast Kent County integrated trails committee to promote, manage, oversee, plan and seek joint funding for trails in the regional area and to avoid duplication of efforts and to enhance the connect ability of the trails and ensure the best regional outcomes.
- Communicate with the County to add biking shoulders to county roads where possible.

**Goal 3:** Continue the improvement and development of the infrastructure and facilities within the Township Parks to satisfy the recreational needs and desires of the community.

**Objectives:**

- Improve and/or develop new and expanded facilities and infrastructure within the Township Parks to include but not limited to, buildings, restroom facilities, picnic facilities, parking, sidewalks, waste receptacles, benches, signage, fences/barriers, and an enhanced trail system that serves the residents of the township.
- Provide multi-generational, universally accessible, and safe recreational facilities that are responsive to the needs of all residents and effectively utilize available resources.
- Develop recreational facilities as identified by the recent and/or future surveys and needs assessments and establish priorities for their development.
- Utilize design, construction, and maintenance practices that maximize the benefits provided for the resources expended.

**Potential Actions:**

- Construct restroom facilities as a priority item identified in the 2022 community survey.
- Provide for universally accessible picnic facilities and shelters as a priority item identified in the 2022 community survey.
- Plan for additional paved parking areas, sidewalks, and trails to provide barrier-free access to all areas.

**Goal 4:** To enhance the quality of life in the township by providing multi-generational, universally accessible, and safe recreational programs that are responsive to the needs of all residents that effectively utilize available resources.

**Objectives:**

- Develop a variety of recreational programs that reflect the changing and diverse needs of the Township residents while promoting the health and welfare of the overall community.
- Improve existing recreational programs to fulfill the needs of Township residents more effectively and to encourage regular use of these programs.
- Develop recreational programs as identified by the recent and/or future surveys and needs assessments and establish priorities for their development.
- Whenever feasible, take advantage of other resources for the development and maintenance of recreational programs, such as non-local funding sources.
- Utilize design, construction, and maintenance practices that maximize the benefits provided for the resources expended.
- Plan improvements that offer both active and passive recreation opportunities.
- Every recreational opportunity should be universally accessible to all individuals whenever possible.
- Provide play areas that are in conformance with the “Playground Equipment Safety Act”.

**Potential Actions:**

- Provide for universally accessible play areas as a priority item identified in the 2022 community survey.
- Provide outdoor exercise equipment that can be used by residents.
- Create a designated area for off leash dog activities.
- Provide for soccer fields, basketball court and/or additional ball fields.

**Goal 5:** To promote the coordination, cooperation, and expansion of recreational programs with other public agencies, private enterprise, citizen groups, and other interested organizations with the common goal of improvement of recreational opportunities for township residents.

**Objectives:**

- Encourage the participation of volunteers in the development of recreational facilities.
- Utilize public and private sector cooperation in the promotion of recreation and the improvement of recreational opportunities.
- Coordinate existing recreational projects with the school systems, community
- Encourage the cooperation and participation of adjacent townships such as Cannon, Algoma, Solon Townships, the City of Cedar Springs and the City of Rockford in the formation of a regional recreational advisory board in an effort to combine resources and avoid duplication of facilities and services.

**Potential Actions:**

- Hire a dedicated Parks and Recreations employee

**Goal 6:** To continually improve the quality of and the opportunities for recreation in the township by reassessing community recreation needs, trends, and characteristics.

**Objectives:**

- Provide opportunities for the involvement of Township residents in the identification, selection, and development of recreational facilities.
- Monitor the effectiveness of the Township's efforts in fulfilling identified goals and objectives by providing opportunities for Township residents to evaluate the progress of recreational development.
- Monitor the effectiveness of the Township's efforts in providing universally accessible opportunities for Township residents.

**Potential Actions:**

- Continue to seek feedback from township residents as it relates to parks and recreation.

**Q3 Would you support a  $\frac{1}{4}$  or  $\frac{1}{2}$  mill levy for 1 year for a specific park project? Recreational trail expansion, new park property, update existing property, etc. (To the average home 1 mill = approx. \$60, therefore  $\frac{1}{4}$  mill = \$15, and  $\frac{1}{2}$  mill = \$30.)**

22	A splash pad would be amazing and is something we don't have anywhere nearby	9/13/2022 9:05 PM
23	Development of connecting trails has never been more important. As someone who frequently uses the side of the road for biking/running, most drivers are distracted. A safe trail system that would connect neighborhoods/communities will eliminate potential car and pedestrian accidents.	9/13/2022 1:44 PM

36	Thank you for seeking input from residents. If tax payer money is to be spent, this is the way to do it. Also, reserve land now. The township seems to be carving up naturally beautiful land at a fast pace. Need to establish tax free land grant system to encourage gifting and preservation of land in the township	9/7/2022 11:52 AM

41	Township could immediately benefit through revenues received by SCOR, CASA, AYSO soccer clubs. RPS rapes these clubs with exorbitant rates.	9/3/2022 12:03 PM
42	Very clean safe	9/2/2022 5:25 PM
43	signage for pb courts with some guidelines about rotating in and sharing the courts would also be helpful. There have been a few incidents where some players arent sharing courts, because they stated there arent any rules. Normally this isnt the attitude of the majority of players and seems to be a few groups.	9/2/2022 3:27 PM
44	I am excited to see that parks are being expanded in our area!	9/2/2022 1:40 PM

47	None.	8/30/2022 12:24 PM
48	I'm very pleased with the current park, and grateful for the time and effort that people have committed to create it. For further development, I request extra emphasis on the vision of the future: What will Courtland Twp be like in 20 years, and what type of parks to we need to create to lead our community toward that vision?	8/29/2022 11:44 AM
49	I heard you already purchased property on Farland	8/29/2022 11:19 AM
50	N/A	8/29/2022 10:35 AM
51	I prefer not to have to pay for both county and township level parks existing in the same space. I'm fine with "expanding" the current offers on the properties that are already owned by the township, city, state, but would prefer that more properties aren't purchased. I'd rather my taxes go down on the whole, not up. I don't like gov't agencies competing for the same stuff, all the while costing me more money without much benefit. The county seems to be doing a good job of parks in our area, but I'm open to Courtland Twp improving their spaces. I just don't want both hollering at me for more money.	8/29/2022 8:07 AM

54	No immediate improvements should be made. With a questionable economic future, fiscal responsibility should be paramount. There actually is a limit to the tax burden we can bear. Recreation is not an essential service.	8/26/2022 9:26 PM
55	No more parks	8/26/2022 6:39 PM

## Courtland Township – 5 Year Parks & Recreation Master Plan Survey

58	appreciate the bi-annual dump days	8/26/2022 1:57 PM
59	We need a dog park bad.	8/26/2022 11:46 AM
60	What is the current master plan?!	8/26/2022 9:52 AM
61	We need to connect the township office to the white pine trail in both downtown Rockford and the trail that connects to Cannon Twsp. offices.	8/26/2022 9:48 AM
62	Several times I've been to the park in the evening and the courts are being monopolized by leagues. This is not fair to residents. I find it hard to believe they all live in the township. Also, the busier the park gets the more congested it feels. New features should be spread out more on the grounds.	8/26/2022 9:06 AM
63	Another disc golf course would be great	8/26/2022 9:01 AM
64	More CLEAN restrooms along the trail	8/26/2022 8:53 AM
65	Connect Meyers Lake and Courtland Twp. offices to Rockford with bike trail	8/26/2022 8:50 AM
66	Make access to the sewer system more attractive for developers and individual builders. I value out resources and water is an important one.	8/25/2022 10:55 PM

68	More shade trees	8/25/2022 8:53 PM
69	n.a	8/25/2022 8:06 PM
70	There is such a robust trail and park system in Kent County in general, I don't really see need of expansion.	8/25/2022 6:51 PM
71	Being a rural area, many of us don't have sidewalks to walk on and live on roads unsafe for walking, running, biking, etc. Trails that are close, convenient, and maintained are so nice to have! I'd love more walking trails.	8/25/2022 6:36 PM
72	Na	8/25/2022 4:39 PM

75	N/A	8/25/2022 4:22 PM
76	Courtland Township continues to grow. We need a way that is easy to have folks donate land to the township. Green space is so important! We cannot get it back once it is gone. We should also be looking at purchasing green space.	8/25/2022 3:55 PM

BOARD MEMBER COMMENTS:

Frandsen – Received comments about putting the roof on this time of year. McIntyre commented that it did not matter what time of year the roof is put on, it does not have any impact on how the roof performs. “Mrs. Claus” passed away in December and thinks it would be good for the Township to recognize her in some way. She was “Mrs. Claus” for the fire department for many years.

McIntyre- Inquiring about the Deputy Treasurer Position and if it has been filled and or put on the website for the public to see. Per Brown, she has someone in mind and if she does not work out, she will consider putting it on the website for the public.

Andersen – Inquiring about the funding for the library, per McConnon they are in the works of getting this funded and if anyone knows of anyone that would be willing to donate to let him know.

Hartman – N/A

Brown – None

McConnon – There is a new flood assessment from FEMA for the federal flood insurance program. McConnon is looking into the details and will bring information back to the board. It may not benefit Courtland Township residents since this does not cover simple basement flooding situations.

Porter – Wind turbines have been proposed in Montcalm County and the residence are not happy about this. There were several officials that were recalled or did not win re-election due to their views on this subject. This is something that will eventually come into Kent County and as a Board we need to start thinking about this.

ADJOURNMENT:

With no further business the board meeting was adjourned at 7:55 PM.

Respectfully submitted,
